

[1 Project description and implementation method]
1.1. Project description (including implementation method)
1.1.1 Trends of Regulations and Nuclear Power Policies

Proposal form

Description contents	▪ Describe the project contents specifically (including implementation method).
-----------------------------	---

▪ **Project description (including implementation method)**

【Criteria for basic point evaluation】

- Is it consistent with the project objectives?
- Do the contents of project conform to the intent of the Agency for Natural Resources and Energy?
- Is the bidder capable of researching overseas nuclear power trends?

【Criteria for added-point evaluation】

- Are the proposals for the project original and innovative?
- Is the implementation method efficient and effective, as well as feasible?
- Does the bidder have experience in research on overseas nuclear power trends and a strong research base?

Description contents	▪ Describe the project contents specifically (including implementation method).
-----------------------------	---

[1 Project description and implementation method]

1.1. Project description (including implementation method)

1.1.3 Advanced Light Water Reactors with High-Level Safety

Proposal form

Description contents

- Describe the project contents specifically (including implementation method).

▪ Project description (including implementation method)

【Criteria for basic point evaluation】

- Is it consistent with the project objectives?
- Do the contents of project conform to the intent of the Agency for Natural Resources and Energy?
- Is the bidder capable of researching overseas nuclear power trends?

- Is the implementation method efficient and effective, as well as feasible?
- Does the bidder have experience in research on overseas nuclear power trends and a strong research base?

[1 Project description and implementation method]
1.1. Project description (including implementation method)
1.1.4 Field Study

Proposal form

Description contents	▪ Describe the project contents specifically (including implementation method).
-----------------------------	---

▪ Project description (including implementation method)

【Criteria for basic point evaluation】

- Is it consistent with the project objectives?
- Do the contents of project conform to the intent of the Agency for Natural Resources and Energy?
- Is the bidder capable of researching overseas nuclear power trends?

【Criteria for added-point evaluation】

- Are the proposals for the project original and innovative?
- Is the implementation method efficient and effective, as well as feasible?
- Does the bidder have experience in research on overseas nuclear power trends and a strong research base?

【2 Project implementation plan】

Proposal form

Description contents	<ul style="list-style-type: none"> To ensure that good results are obtained, describe major milestones of the project implementation plan (work contents and schedule) conducted by the bidder, and state specifically and objectively the basis for the schedule proposed.
-----------------------------	--

■ Work contents and schedule

■ **Schedule**
(Include the following items in the description.)

- Work description, persons in charge, start date, end date, title of document prepared, milestones

Quarter	1	2	3	4
1.1.1 ○○	■			
1.1.2 ○○		■		
1.1.3 ○○		●		
Other		Interim report		Report writing

Example of description

■ **Innovativeness and ideas that will ensure that work is completed on time**

- The schedule used in the past XXX was utilized as a template to create this schedule.
- XXXXXXXXXXXXXXXXXXXXXXXXXXXX
-

【Criteria for basic point evaluation】

- Is the schedule appropriate?
- Can the bidder meet the objectives according to the schedule?

【Criteria for added-point evaluation】

- Are reasons, innovativeness, and experience which indicate this schedule is reasonably achievable shown?
- Is the schedule set up carefully such that the project implementation timing and term is established in accordance with the objectives and the findings of the research can be reflected in the later project and reported effectively?

【3 Project implementation system】

3.1 Organizational expertise and experience in similar projects

Description contents	▪ Describe organizational expertise, know-how, and past experience relevant to the project.
-----------------------------	---

- Expertise and know-how
 - XXXXXXXXXXXX
 - Separately described in the proposal, “reference to XXX”, etc.

- Past Experience
(Include the following in the description.)
 - Client (* it is not mandatory to disclose the actual name. Instead, the name may be written as, for example, “Central government department A” or something similar.)
 - Summary of implementation
 - Implementation timing
 - Principal persons in charge of project implementation, etc.

If additional information is available, attach it to this as “annex”.

Example of description

【Criteria for basic point evaluation】

- Do they have experience (expertise obtained) in similar projects?
- Does the organization have the ability to examine the research contents from various perspectives?
(Does the organization have different specialized departments, or a balanced structure?)

【Criteria for added-point evaluation】

- Do they have a reservoir of expertise, know-how, and others useful for this project?
- Do they have implementation experience of research which is cited in various materials, or have they achieved valuable research outcomes?

[3 Project implementation system]

3.2 Expertise and past experience in similar projects of persons who will be engaged in this project

Description contents	<ul style="list-style-type: none"> Describe expertise, accumulated know-how, and past experience in similar projects of persons who will be engaged in this project.
-----------------------------	---

▪ **Name of person in charge**

(Include the following items in the description.)

- Division and position
- Work to undertake
- Role
- Work experience (customer business category, work implemented and its contents, positioning in the organization, implementation term)
- Career summary, skills, expertise, etc.
- Past successes

▪ **Name of person in charge**

(Include the following items in the description.)

- Division and position
- Work to undertake
- Role
- Work experience (customer business category, work implemented and its contents, positioning in the organization, implementation term)
- Career summary, skills, expertise, etc.
- Past successes

If additional information is available, attach it to this as “annex”.

Example of description

【Criteria for basic point evaluation】

- Do they have experience in similar projects?
- Do they have implementation experience of research which is cited in various materials, or have they achieved valuable research outcomes?

【Criteria for added-point evaluation】

- Do they have a reservoir of expertise, know-how, and others useful for this project?
- Do they have implementation experience of research which is cited in various materials, or have they achieved valuable research outcomes?

【4 Attached material】

4.1. Worker-hours for project implementation

Description contents	▪ Describe total labor cost and worker-hours necessary to enable the project implementation method proposed in “2, Project implementation plan”.
-----------------------------	--

- [Name of contract item] Detailed estimation

Example of description

Work		Worker-hours (man-hrs)
No.	Item	
1. 1. 1	●●●-related item	
1. 1. 2	○○○-related item	
	Total	

▪ The figures are reference values only and they do not need to coincide exactly with worker-hours and labor costs set out in the contract.
